

# Greening the city

## Demonstration Project

Liverpool City Council is asking existing community groups to be considered for the development of two demonstration projects as part of Greening the City. We are looking for community-managed greening projects on underused land.

This is a new pilot initiative where community groups can apply to get money and advice to turn underused land into attractive and productive areas where communities can learn new skills, increase their physical activity and meet new people.

Between now and the end of May 2010 the selection process will identify a minimum of two projects to go forward, with grants of up to £20,000 each to tackle green initiatives and environmental issues within local neighbourhoods. The selected projects will start in June 2010 and capital works must be finished by March 2011.

## Find out more and apply

Interested? On the TEP website, you can find guidance notes for the project [here](#) and application forms [here](#).

**Deadline for applications  
End of April**
